January 10, 2010: Overview: What does it mean to be a magickal person?

Keepers of the Holly Chalice

Characteristics of a magickal life; why is it different from “normal”, or most people; how it is the same; how to manage your growth; your responsibility to grow. We will also discuss what is to be taught in the next five classes,

and offer suggestions for those who may need to get up to speed.

January 24, 2010: “Not Available in Stores”: Your Self as a Magickal Tool. Michael Smith

Many people have inborn gifts and skills, which are less useful without working to create a balanced and whole self. For those of us with more interest than skill, working on yourself first is crucial to becoming a practitioner of Magick. The physical, emotional, mental and spiritual aspects of work will be discussed, with exercises.

February 7, 2010: Low Magick: Tools for everyday workings Ivo Dominguez, Jr.

Spells, charms, protection, correspondences and assistance from the small spirits. A sampling of workings for useful ends. Take your practice to a new level of low.

February 28, 2010: Astrology for Magick: “The right working at the right time” Ivo Dominguez, Jr.

Knowledge of energy is a key component of effective magick. The positions of the stars and planets provide the practitioner with a detailed map of the ebb and flow of energy throughout the year, the day and even the hour. Learn to

use Astrology to take your magick to the next level.

March 14, 2010: Qabala for Magick: “Everything is connected” Michael Smith

Qabala contains the keys to an intellectual understanding of the metaphysical structure of the universe – but it's more than that. A knowledge of practical Qabala can open the doors to a broader world where magick and self become one. A firm grounding in Qabala is required.

March 21, 2010: “Power Tools”: Magickal Technology Ivo Dominguez, Jr.

We in the Assembly are blessed to have the resource that is Ivo Dominguez, Jr. Over his decades of work in this life, he has developed many magickal tools that are a synthesis of traditional metaphysical teachings, modern science, and memories of past life experience. More than high or low magick, or any one system of magick, these tools are true magickal technology. We will experience and learn a few tools, hear about a few more, and begin to enter the mindset of using everything that comes to hand in magickal working, whether it is overtly magickal or not.
